

Dear Members,

The GCCF decision to implement the EMS for their registrations makes importing from GCCF to FB a much simpler process, cutting down the time element quite considerably and so we find that we can reduce the fee for such imports.

The EC have agreed that from 1.10.2018 the fee for an import from GCCF will be £15.00, to include a printed 4 generation pedigree. All other fees will remain as they are.

In addition, the Registrar will now accept the emailed version of the pedigree from GCCF provided that this is in its original form.

For and on behalf of the Executive Committee
